Honorable Henry M. Jackson  
Chairman, Subcommittee on  
National Policy Machinery  
Committee on Government  
Operations  
United States Senate  
Washington 25, D. C.

Dear Scoop:

Thank you very much for the advance copy of your Final Statement as Chairman of the Subcommittee on National Policy Machinery. Your summary of the main conclusions is, as you indicated, of considerable interest to me. I have followed the work of the Subcommittee very closely and I certainly believe it has performed a unique public service.

Certain of your conclusions relating to personnel and the career services of Government have particular application to the Agency and touch on subjects which have been the subject of personal interest and study on my part. Perhaps it is unfortunate that your group is not going more deeply into some of these points.

Sincerely,

*THIRD*  
John S. Warner  
Legislative Counsel
